SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration has various mission responsibilities related to the acquisition, management, and disposal of real and personal property. These mission responsibilities include developing requirements, solicitation of lease offers and the award of real property lease contracts. Individual solicitations and resulting contracts may impose unique information collection/reporting requirements on contractors, not required by regulation, but necessary to 1) evaluate whether the physical attributes of offered properties meet the Government's requirements and 2) evaluate the owner/offeree's price proposal. The approval requested includes four versions of the GSA Form 1364; GSA Forms 1364, 1364A, 1364A-1, and 1364WH. These forms are used to obtain information for offer evaluation and lease award purposes regarding property being offered for lease to house Federal agencies. This includes financial aspects of offers for analysis and negotiation, such as real estate taxes, adjustments for vacant space, and offeror construction overhead fees.

A total of seven lease contract models have been developed to meet the needs of the national leased

portfolio. Three of these lease models require offerors to complete a GSA Form 1364 and two require a GSA Form 1217. The GSA Form 1364 versions require the submission of information specifically aligned with certain leasing models and avoids mandating submission of information that is not required for use in evaluation and award under each model. The GSA Form 1217 requires the submission of information specific to the services and utilities of a building in support of the pricing detailed under GSA Form 1364. The forms relate to individual lease procurements and no duplication exists.

The Global Lease model uses the GSA Form 1364. The 1364 captures all rental components, including the pricing for the initial tenant improvements. The global nature of the 1364 provides flexibility in capturing tenant improvement pricing based on either allowance or turnkey pricing, as required by the solicitation.

The Simplified Lease Model uses the GSA Forms 1364A and 1364A-1. This model obtains a firm, fixed price for rent, which includes the cost of tenant improvement construction. Therefore, leases using the Simplified model do not include post-award tenant improvement cost information on the form. The 1364A includes rental rate components and cost data that becomes part of the lease contract and that is necessary to satisfy GSA pricing policy requirements.

The 1364A-1 is a checklist that addresses technical requirements as referenced in the Request for Lease Proposals. The 1364A-1 is separate from the proposal itself and is maintained in the lease file; it does not become an exhibit to the lease. The 1364A-1 may contain proprietary offeror information that cannot be released under the Freedom of Information Act.

The Warehouse Lease Model uses GSA Form 1364WH. This model is specifically designed to accommodate the special characteristics of warehouse space and is optimized for space whose predominant use is for storage, distribution, or manufacturing. The 1364WH captures building characteristics unique to warehouse facilities and allows for evaluation of offers based on either area or volume calculations.

The Global and Warehouse Lease Models use the GSA Form 1217. GSA Form 1217 captures the estimated annual cost of services and utilities and the estimated costs of ownership, exclusive of capital charges. These costs are listed for both the entire building and the area proposed for lease to the Government, broken down into specific categories.
